Michael informed the Board that two meetings of the Education Committee have been held so far, and participation remains open for others to join. The committee is currently focusing on 2–3 top priority projects. One project is creating a website or webpage for the public for centralized and enhanced access to educational materials. Another goal is to improve the usability of the legal directory, making it easier for the public to navigate and find relevant legal resources. The group discussed strategies to fulfill the mandate under GR 25(b)(1), which emphasizes educating the public on how to find legal assistance. The focus is not only on locating a lawyer but also on helping individuals evaluate legal professionals and understand what to expect when working with one.
