

David Lawson  
WSBA Business Law Section  
Nonprofit Corporations Committee Chair  
April 4, 2025

I have served as Chair of the Nonprofit Corporations Committee for the past three years. Before that, I was the Committee's recorder for several years, during which time the Committee drafted the new Nonprofit Corporation Act. I have enjoyed the work and wish to continue it, and hope Section members will re-elect me to the Chair position.

In the last year, the Committee has done good work on amendments to the Trust Act and has helped the sector respond to uncertainty and rapid developments resulting from the new Administration's initial months in office. Also, the Committee has continued serving as a valuable point of interface between practitioners and the state regulators most active in the nonprofit corporate area, the Attorney General's office and the Secretary of State's office. Both send high-level representatives to most of our meetings.

If I am re-elected as Chair, I plan to have the Committee work on two legislative projects during this coming year, with the assistance of several Committee members who have already generously offered their time and energy to these projects. The first, which is well in progress after good work over the past year, is a package of amendments to the charitable provisions of the Trust Act that will harmonize them with the new Nonprofit Corporation Act. The second, which will become the committee's first priority once the Trust Act package is done, is to propose amendments to the Nonprofit Corporation Act that will clarify the law regarding derivative actions on behalf of nonprofit corporations.

Thank you for your support.
