

Josh Brower: Statement of Interest to serve on the ELUL Executive Committee.

I am interested in serving on the Executive Committee of the Land Use and Environmental Section because I am passionate about advancing thoughtful, practical dialogue around the complex land use and environmental issues facing Washington communities. Through my practice at Brower Law PS, I have represented clients navigating a broad range of permitting, development, and regulatory matters, giving me firsthand insight into the challenges and opportunities within this field. I was a Land Use Planner before going to law school, which also gave me extensive experience and insight into these issues, challenges and opportunities

I would welcome the opportunity to contribute to the Section's mission by supporting meaningful programming, fostering engagement among practitioners, and helping strengthen connections between public and private sector professionals. I also value the Section's role in mentoring and developing the next generation of land use and environmental attorneys and would be excited to support those efforts through Executive Committee service.
