

Nancy Hawkins

I ask for your vote for an at-large position on the WSBA Family Law Section Executive Committee.

I see the need for a variety of perspectives on FLEC. My own history has given me some insight into the needs of family law attorneys and the need to be involved in other aspects of the WSBA.

I have been in practice for 44 years, primarily in family law representing men and women going through difficult times. For years I volunteered in a free clinic. Being a good attorney requires that you consider many points of view and options. Being a FLEC member requires the same. I have been active on various Boards since I was sixteen years old. I have been active with the WSBA for many years as an author for the Family Law Deskbook and, for various capacities on the Executive Committee of the Family Law Section. I have spoken at dozens of seminars on family law matters. I have served as an unofficial conduit of information to other sections. I believe in strong sections and a legal system that meets the needs of all of Washington State. I believe in helping working attorneys better represent their clients.

With your support, I will work to do so on the Executive Committee.
