

I am interested in serving as an At-Large Member on the Family Law Section Executive Committee because I value FLEC's role in supporting family practitioners, promoting thoughtful discussion on issues affecting families, and improving the administration of justice in Washington.

As a family law attorney, I have seen how important it is for practitioners across the state to have access to professional resources, continuing legal education, mentorship, and opportunities for meaningful collaboration. I would welcome the opportunity to contribute my perspective, energy, and commitment to FLEC's work, and to strengthen communication with members and ensure that FLEC continues to be responsive to the needs of family law practitioners.

It would be a privilege to serve in this role and to help advance FLEC's work on behalf of Washington family law attorneys and the families impacted by our practice.

Very truly yours,

Lily Kendall Wilson
